

Sustainable development of the future

Course Workload		Assessment form (examination/ graded test/ ungraded test)
ECTS	Hours	
3	108	Graded test

The course aims to provide students with a solid understanding of the concept of sustainable development, the evolution of sustainability policies at global and European level, and the role of sustainability reporting as a tool for transparency, accountability, and strategic decision-making. Particular attention is given to the UN 2030 Agenda, sustainability reporting frameworks, and the European Sustainability Reporting Standards (ESRS), including their relevance for non-EU companies.

Course structure:

1. Introduction to sustainable development

- 1.1. Introduction to sustainable development
- 1.2. The UN 2030 Agenda and the SDGs

2. Sustainability reporting in companies

- 2.1. SDG reporting in companies
- 2.2. Sustainability and business strategy

3. Sustainability reporting regulation

- 3.1. Sustainability reporting: global and European perspective
- 3.2. ESRS and sustainability reporting beyond the EU
